There has been no time when any Cabinet has left office in this country. Such writing is a mere imitation of writers in other countries. The changes in the Hawaiian Cabinet have always been personal and gradual. Dr. Judd left the Treasury Sept. 5th, 1853, and was succeeded by Mr. Allen, the rest of the Cabinet remaining as before. Mr. Young died in August, 1857, and his present Majesty, then Prince Kamehameha, who had for some time been performing his duties, succeeded to the office. In 1857 Chief-Justice Lee died, and Mr. Allen was transferred from the Treasury to the Bench, and Mr. Gregg took Judge Allen's place in the Treasury. Upon the death of Kamehameha IV., November 30, 1863, Judge Robertson Mannar the 11th of December, being the birth day accepted the situation of Minister of the and then went back to the Bench, his services there having been found to be indispensable. Mr. Hopkins left the Finance Department in 1863, and was succeeded by Mr. de Varigny, and upon Consul until the pleasure of the Chilian Government the Bench, Mr. Hopkins took charge of the Interior Department, and continued in charge until he was about to leave the country in company with her Majesty Queen Emma, when the present Minister On the commation of the Board of Education, Mr. of Interior took the office. Moffitt Stoney has been appeined an Agent to died Oct. 19, 1885, when Mr. de Varigny was transferred from the Treasury to the Attorney-General's office to the Treasury, and Mr. Phillips took the Attorney-General's place. Mr. de Varigny resigned the Foreign Office in Nov., 1869, and Mr. and holden at Honolulu this second day of October, the Treasury. Thus it will be seen that no Cabinet has ever left office at all; that out of the changes made, four have been caused by death and two by leaving the country-that the changes have always been gradual, so that the sentence-

The Panama Railroad.

(From the Callac and Linu Gazette, Aug. 28.) A raw weeks ago we addressed ourselves to the subject of the decline in the prospects of the Pausma Railroad Company, and stated that the Company had been necessitated to address the Government of Columbia, urging the impossibility of continuing to pay the enormous subsidy of \$250,000 per year, or nearly \$700, gold, a day, and requesting that in 'lieu thereof a percentage on the profits, as by the old contract, should be instituted." The Govern ment at Bogota has since replied to the communication, and the whole of the important correspond ence was published by as in our edition of the 22nd

The reply of the government must be regarded as nost unsatisfactory to the Company, and to the large number of persons on this coast deeply interested in the maintenance of the line across the True, there is not in the letter from Bo gota a direct refusal to accede to the terms proposed by the Company, but the tone which pervades the entire communication indicates very clearly that there is very little inclination to do so. The Gov eroment, we are told, "can not formally take into consideration any proposition of the Pansma Railroad Company, tending to lower the subsidy receivobtained a thorough knowledge of the true situation of the Company; that is to say, the traffic in mercounting from Japuary 1, 1852; the tariff of freight and passage; the product of each tariff; the traffic movements of rival undertakings, with their different tariffs, and the prospects which, from all these facts, may be drawn in favor of the future of Panama. The Executive expects this last data from the Rallroad Company." This must be admitted to be business-like; and that there will be no difficulty to the Government obtaining the information required, the concluding portion of Mr. Hoadley's second

"In conclusion, I can assure your Excellency that if other proofs are required, from the books and accounts of the Company, to verify the facts which have induced the Directors to take this step, the books and accounts will be exhibited to whatever representative the Government may authorize for

examining them." That there is no misrepresentation whatever in the documents of the Company is quite certain; the simple fact that at the end of 1898 shares were sold at 369, and now they are below 50, proves this beyoud question. That the state of things represented by Mr. Hoadley, the President, proves conclusively the Company can not continue the subsidy is ce tain, as it would be better to abandon the enterpri than to continue it as a tax upon the shareholders The result would be inevitable-the road would be "Up to the flux when the present Ministry as—
